**Testing Charges**

<b>Instrument</b>	<b>Type of analysis</b>	<b>Charges (in INR)</b>
High Performance Liquid Chromatography (HPLC); (Shimadzu)	HPLC analysis	2000/ per sample
UV-Vis-spectroscopy; (Shimadzu)	Absorption spectra, DNA, EtBr and Protein binding	500/ For 1-5 samples Binding assay: 500/ for 1 hr.
Gel electrophoresis; (BioRad)	DNA degradation study	1500/ For 1-3 samples
ELISA Reader; (Erba)	Absorbance	300/ for single run
Biochemistry analyser; (Erba/iChem)	Absorbance	According to the type of analysis and sample quantity
Brookfield Viscometer; (Brookfield)	Viscosity measurement	400/ per sample
Cooling centrifuge; (Eppendorf)	Centrifuge	500/ For 8 samples/ one time
Lyophilizer/freeze Dryer (Instrumentation India)	Freeze dry	500/- 150ml. of sample
Rotary evaporator (Instrumentation India)	Solvent evaporation	400/- 200 ml. of sample (for Ethanol 100 ml.)
PCR (Bio-Rad)	PCR	5000/sample (Minimum 5 samples required)

**Please Note: -**

1. The above charges are only for acquiring and providing data; analysis of data will be charged separately.
2. The analytical data/spectra are provided only for research/development purposes.
3. Separate samples should be sent for different analysis.
4. Maximum 5 samples per lot for any type of analysis are accepted at a time.
5. Please send the samples in quantity as mentioned in the sample submission guideline. Samples are not recovered unless a special request is made.
6. Unstable and explosive compounds are not accepted for analysis.
7. Sample analysis will be started upon receiving the requisite fee. Hence, fee must be paid after receiving confirmation from the Institute.
8. Once payment is done, no refunds will be there.
9. It is mandatory to pay the sample charges in advance and visit the pharmacy department with the samples for analysis.
10. The user needs to submit the form, mentioning the transaction details through email or at the office.
