INTRODUCTION

Advances in technology, educational policies and the pandemic situation: all have contributed to a general shift in the teaching-learning process. It is a challenge to educators across all subjects to deliver adequately and completely, so that the learner can grasp as best as possible. The Faculty Development Program (FDP) aims to improve the expertise of academicians of scientific and technological streams to counter the changing academic environment. With the incorporation of contemporary methods like biotechnology, artificial Intelligence, and customized care, the role of the educators in training the future generation of pharmacists, engineers are more important than ever. The prime motto of this FDP is to give the trainers a thorough awareness of the most recent approaches, trends, and difficulties in the teaching-learning pedagogy and scientific research. It will enable them to bridge the gap between academia and industry by providing them with the necessary skills and information to deliver a robust lecture and engage the student community for better understanding. From blackboard to smartboard, teaching has come a long way and adapting to newer methodologies is the call of the day.

OBJECTIVE

- To introduce attendees to new techniques and approaches as well as recent developments in scientific lecture delivery.
- To promote collaboration through peer learning and networking.
- To support mental well-being and work-life balance by addressing emotional health.
- To assist the educators to integrate digital tools into their teaching practice.
- To promote the incorporation of practical scientific research issues into academic instruction.

EXPECTED OUTCOME

- Participants in the FDP will be able to recognize and describe the most recent advancements and procedures in pedagogy.
- The educators can opt for modern teaching methodologies.
- The program will escalate student engagement through innovative classroom strategies.
- Improved decision-making abilities related to curriculum, policy, and administration.
- It will improve participation in outreach programs, student clubs, or social initiatives.

BENEFITS TO THE PARTICIPANTS

- Improve teaching competency
- Professional growth and career advancement
- Leadership and administrative skills
- Enhanced personal well-being and work-life balance
- Better student outcomes and classroom environment
- Exposure to global best practices in education
